MODULAR LIVING AND WORKING

KONEKTRA

Modular Design

without Limits

konektra SYSTEM 01 in the Urban and Classic versions is a modular shelving system that gives you the freedom to customize your furniture to suit any living and working situation. You define the proportions, colour and your personal style.

Create the individual furniture you need!
For konektra, quality and durability play a major role alongside appearance!
All products in the SYSTEM 01 Collection are made from high-quality materials from responsible sources.

KONEKTRA Urban

MODERN AND SLEEK

With their refined minimalism, the closed corner connectors embody a quiet elegance. Their urban aesthetic brings a contemporary edge to any space—defined by clean lines, understated form, and effortless design clarity.

KONEKTRA Classic

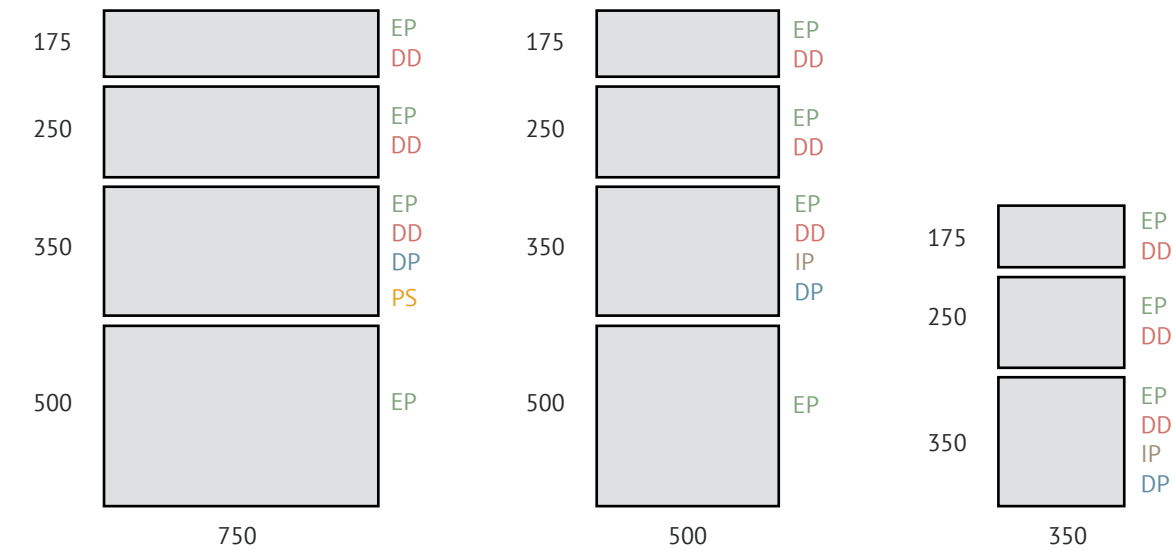

MINIMALIST AND CLASSIC

Design your individual furniture with an open ball connector and make your rooms stand out with a creative interpretation of the classic in a timeless design.

MODULAR SYSTEM

The metal elements integrated into the unit—such as the external panel, divider panel, internal panel, drop-down door, and extension panel—are available in various system dimensions. These different sizes offer nearly endless possibilities for creating custom configurations of the unit.

System dimensions in mm

- EP = External panel
- DD = Drop-down door
- IP = Internal panel
- DP = Divider panel
- PS = Pull-out shelf

to your needs.*

SYSTEM 01 ADD-ONS

Intelligent and modular. konektra SYSTEM 01 withstands even the most complex requirements thanks to its intelligent and sophisticated design. The functionality of the SYSTEM 01 Collection is just as important to us as its timeless design: SYSTEM 01 is a shelving system that solves your storage problems in no time at all!

Design your own combination with metal shelves. Or play with colours and accessories. The possibilities are endless: From a classic office shelf for your files to a sideboard in your hallway or a TV lowboard, anything is possible. SYSTEM 01 is perfect for any use at home or in the office!

TUBES

PRECISION IN EVERY DETAIL

Crafted and perfected in Germany, our steel tubes set the standard for quality, strength, and durability. With a flawless finish and timeless aesthetic, they form the backbone of every konektra shelving system—designed to last, built to impress.

Tube sizes:

- 175 mm
- 250 mm
- 350 mm
- 500 mm
- 750 mm

Tube colours:

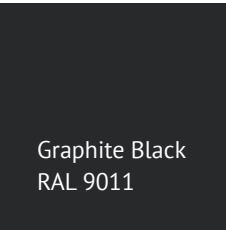

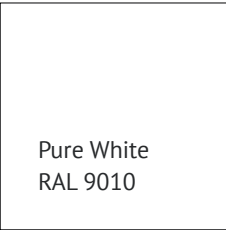

- Chrome shiny
- Chrome matt
- Black matt

COLOUR IT YOUR WAY

Elevate your space with personalized colour accents, selecting from a refined palette of 16 RAL and LINE colours. Our doors, panels, and shelves are available in a spectrum of sophisticated shades and system dimensions, ensuring seamless integration into any environment.

The metal doors can also be utilised as pull-out elements for drawers, offering added versatility and depth to your design, while enhancing the tailored, elevated aesthetic.

CONNECTORS

Our corner connectors are the central element for stable and expandable shelving systems with limitless design possibilities.

Available in two versions:

- konektra Urban - modern and sleek
- konektra Classic - timeless and compatible

Colours:

- Chrome shiny
- Chrome matt
- Black matt

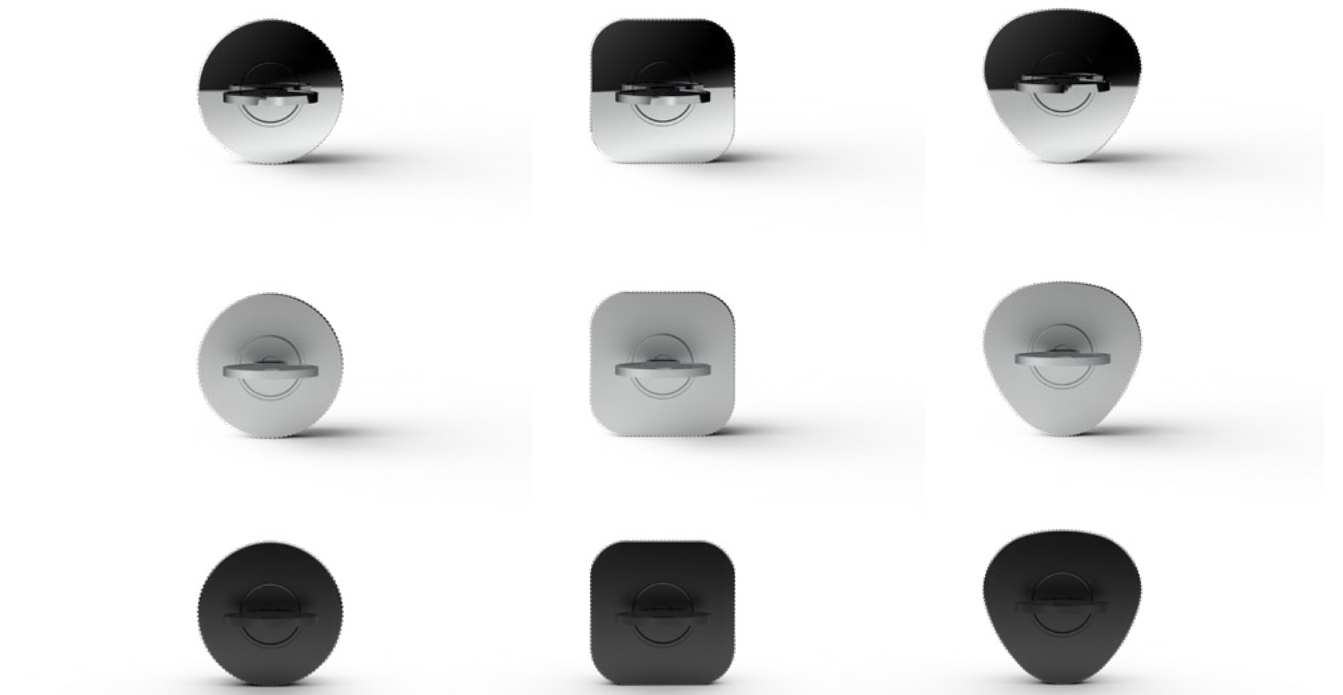

HANDLES

Our handles are designed to complement all available hinged doors and are offered in round, square, or triangular forms to harmonise perfectly with our shelving systems. For enhanced security, lockable versions are also available, with locking circuits provided on request. The round lock handle is standard, and all handle shapes are fully compatible.

Choose from three high-quality surfaces:

- Chrome shiny
- Chrome matt
- Black matt

FEET

choose between adjustable leveling feet or castors for maximum versatility.

The leveling feet are available in two versions:

- Plastic (black)
- Steel (chrome shiny, chrome matt or black matt)

For mobile configurations, we offer castors with or without locking mechanisms.

Intelligent.
Durable.
Modular.
