

AUCKLAND HOME SHOW 2026

YOUR KITCHEN. YOUR WAY.

AFFORDABLE STYLE. PRACTICAL CHOICE.

European-inspired modular kitchens,
benchtops, sinks, storage and
planning support — all in one place.

10-13 SEPTEMBER 2026 | AUCKLAND SHOWGROUNDS, GREENLANE

WHY BUY FROM US

SMARTER VALUE. REAL CHOICE.

KCS gives you the freedom to create a kitchen that suits your home, your style and your budget — without being locked into a one-size-fits-all package.

A COMPLETE KITCHEN WITHOUT THE DESIGNER MARK-UP

Buy a complete kitchen, a single cabinet or anything in between. Choose where to invest and where to save.

YOU CONTROL THE BUDGET

1

STRONG VALUE

Premium-looking cabinetry and finishes at a practical price point.

2

REAL CHOICE

Cabinets, fronts, benchtops, sinks, taps, storage and hardware.

3

FLEXIBLE BUYING

Flat-pack, assembled or installer-coordinated options.

4

DESIGN SUPPORT

Bring measurements or plans and let our team help shape the layout.

5

3D VISUALISATION

See your proposed kitchen before you commit to the final selection.

6

LOCAL ACCESS

Visit Auckland showrooms to compare finishes and products in person.

ONE-STOP RANGE

EVERYTHING YOUR KITCHEN NEEDS

Coordinate cabinetry, fronts, benchtops, sinks, hardware and storage with fewer suppliers and clearer control over the final result.

01

CABINETRY

Base, wall, pantry and tower units in practical modular sizes.

02

DOORS & FRONTS

Slab, shaker, J-pull and other profiles across multiple finish options.

03

BENCHTOPS

Stone and laminate options from quiet neutrals to bold feature patterns.

04

SINKS & TAPS

Stainless, granite and ceramic options with coordinated tapware.

05

SMART STORAGE

Pull-outs, organisers, bins and corner solutions designed around daily use.

06

QUALITY HARDWARE

Soft-close hinges and runners, plus selected TIP-ON and drawer options.

BUY IT THE WAY THAT SUITS YOU

Choose the level of support that fits your confidence, timetable and budget. You can do more yourself, or ask us to help coordinate the next stage.

OPTION 1

DIY & FLAT-PACK

Ideal for experienced renovators, builders and budget-conscious projects. Use KCS planning information, assembly guidance and the online 3D planner.

OPTION 2

ASSEMBLED CABINETS

Reduce the time spent putting units together. Select assembled cabinetry for greater convenience, then collect or discuss delivery arrangements with the team.

OPTION 3

INSTALLER SUPPORT

Need help on site? KCS can help arrange a third-party kitchen installer so you are not left to find every part of the process alone.

DO IT YOURSELF - NOT BY YOURSELF

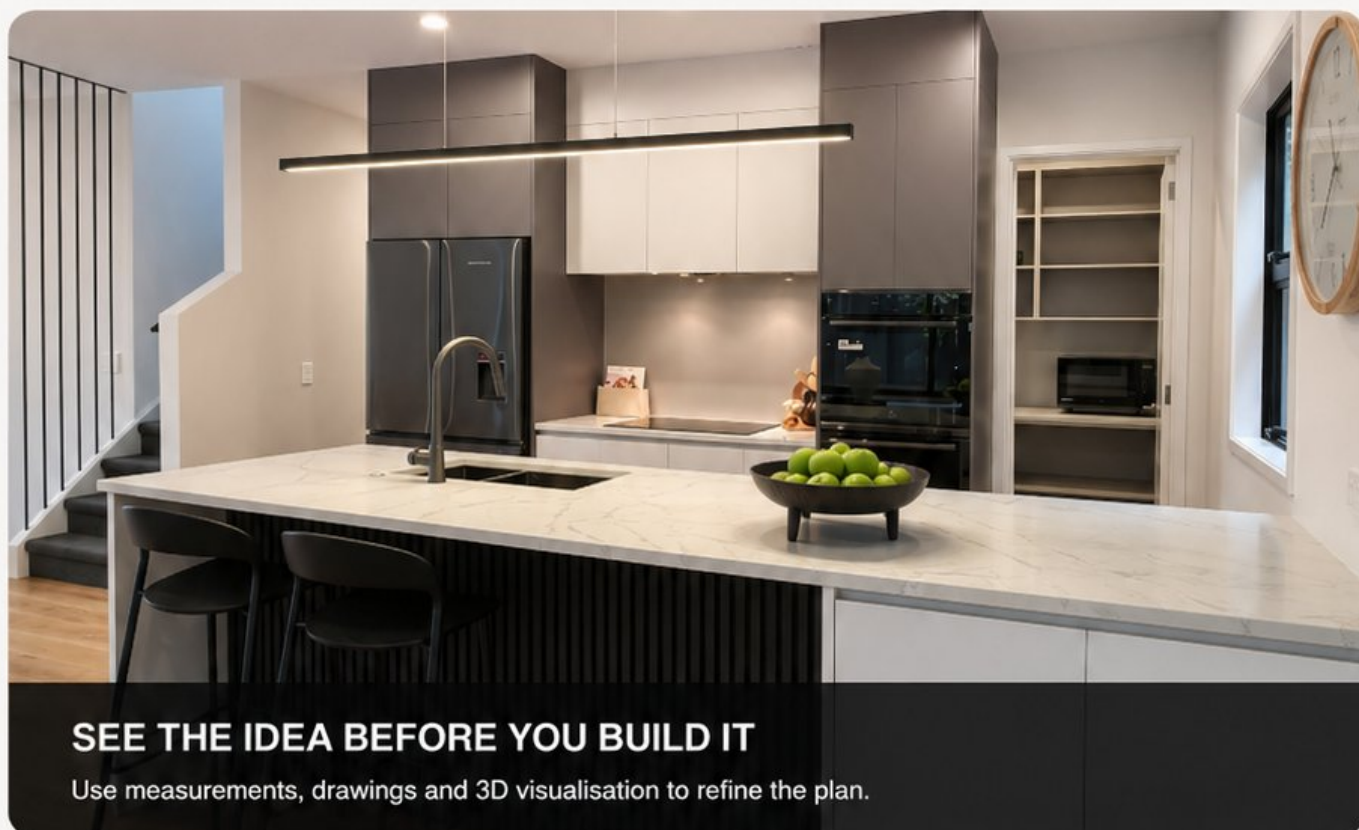

Guides, videos and planning support are available.

START SMALL. EXPAND LATER.

Replace one cabinet, add a pantry, refresh fronts or plan the complete kitchen — the modular system gives you room to stage the project.

DESIGN IT AROUND REAL LIFE

A good kitchen is more than a colour choice. We help you consider movement, storage, appliances, clearances and the way your household actually uses the space.

SEE THE IDEA BEFORE YOU BUILD IT

Use measurements, drawings and 3D visualisation to refine the plan.

COMMON LAYOUTS

L-SHAPE

U-SHAPE

GALLEY

ISLAND

- | | | | |
|---|--|---|--|
|  WORKFLOW | Keep preparation, cooking, cleaning and food storage practical. |  STORAGE | Plan drawers, pantry space, bins and everyday access before choosing the look. |
|  APPLIANCES | Confirm exact appliance models and dimensions before finalising cabinetry. |  CLEARANCES | Allow doors, drawers, walkways and corner units to open without conflict. |

FROM FIRST IDEA TO FINISHED KITCHEN

A clear process reduces surprises. Bring what you already know, and we will help identify the decisions still needed before ordering.

1

MEASURE & CAPTURE

Record wall lengths, ceiling height, windows, doors, services and appliance locations. Photos help.

2

TALK & PLAN

Discuss your goals, preferred layout, style, timetable and budget with the KCS team.

3

VISUALISE & SELECT

Review the layout in 3D, then select cabinetry, fronts, benchtop, sink, storage and hardware.

4

CHECK & CONFIRM

Verify measurements, appliance models, clearances, quantities and final selections before order approval.

5

COLLECT, DELIVER & INSTALL

Choose collection or discuss delivery. Assemble and install yourself, or ask about installer support.

IMPORTANT: Final site measurements and installation conditions must be verified before manufacture or installation.

MAKE YOUR HOME SHOW VISIT COUNT

The better the information you bring, the more useful your conversation will be. A rough sketch and a few clear photos are enough to get started.

BRING WITH YOU

- ✓ Room length, width and ceiling height
- ✓ Window and door positions
- ✓ Water, power and gas locations
- ✓ Appliance sizes or model numbers
- ✓ Photos of the current room
- ✓ Inspiration images and preferred colours
- ✓ Approximate budget range
- ✓ Target timing for the project

TIP: MEASURE TWICE

KCS WORKS FOR

- FULL RENOVATIONS**
Replace the entire kitchen with a coordinated new layout.
- NEW BUILDS**
Plan cabinetry and appliances early, before services are fixed.
- RENTALS & REALES**
Improve function and appearance while keeping control of cost.
- LAUNDRY & PANTRY**
Use modular cabinetry beyond the main kitchen.
- DIY PROJECTS**
Buy products and use KCS guidance to complete more work yourself.
- TRADE & BUILDERS**
Source cabinets, benchtops, sinks and hardware for client projects.

LEAVE WITH A CLEARER PLAN

LET'S BUILD YOUR KITCHEN.

Bring your measurements, photos and ideas to our Auckland Home Show stand. Ask about our exclusive Home Show offer.
