

Live outdoors for less.

Using high-quality materials and textiles our collections will help create warm and inviting spaces around your home.

Living culture is continually expanding with new products regularly being added to our exclusive yet affordable selection which include:

Pergolas & Louvre roofs, Outdoor Shade Umbrellas, Saunas, Spa Pools, Patio covers, Carports, Garden Sheds, Cabins, Outdoor Cooking, Outdoor Heating, Outdoor Furniture and more.

Established in 2007 the Living Culture brand did not expand fully until 2020 when the company embarked on a new journey.

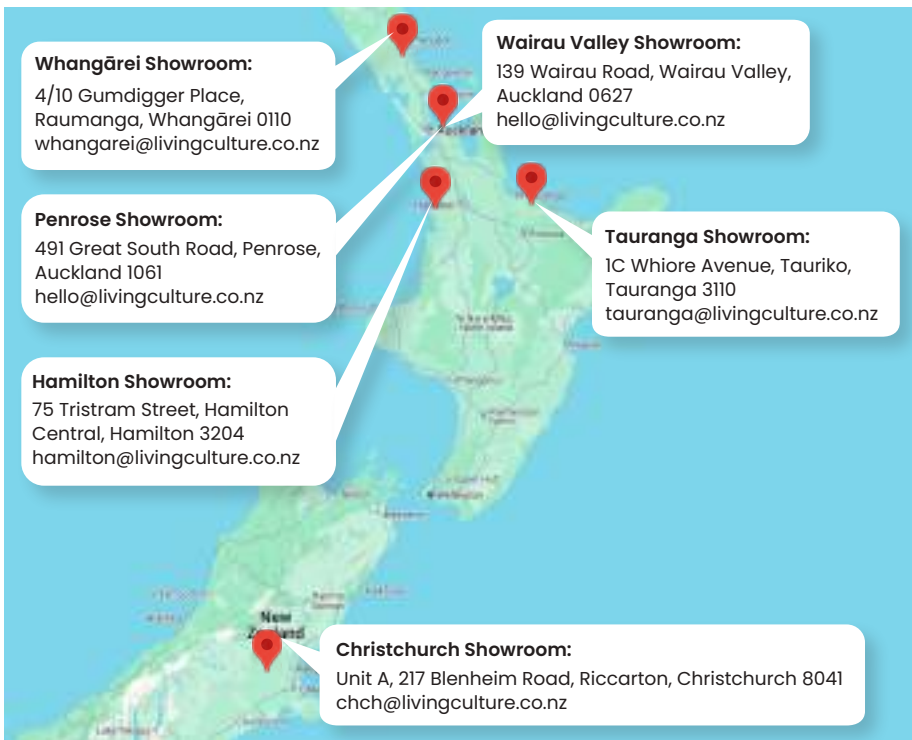

This included launching the new Louvre Pergola range and opening the new 1,858 m² Auckland Showroom. This was followed closely by the establishment of the new Pt England Distribution Centre which consists of over 2,322 m² of quality home and living products for distribution around New Zealand and Internationally.

Since 2007 the company has proudly processed more than 1,000,000 orders and can honestly say we have served more than 300,000 New Zealanders. The team are as excited about assisting you today as we were operating out of the small Dunedin garage all those years back.

We welcome you to visit us online or in store and would love to help you enjoy the laid-back kiwi lifestyle with quality products direct from our internationally acclaimed suppliers for everyday low prices.

Aluminium Louvre Systems

The Living Culture pergola louvre system is a market leading solution allowing you to maximise your outdoor space year-round.

Available in standard or customised sizes, a Living Culture louvre system can expand your living space, enabling you to establish an outdoor oasis and creating a seamless indoor-outdoor flow that your family and guests will love.

Dine and relax outdoors while enjoying the breeze, staying out of the harsh Australia sun. With a louvre roof, you can easily control just how much of the sun's rays you'll be soaking up. Use the manual or motorised control to tilt the louvres to best suit you and the weather. The aluminium louvre system can transform your outdoor space into a multi-use area, with coverage and protection available in sun or showers.

Add additional blinds or glass doors along with a cosy firepit to maximise comfort and create ambience.

Featuring contemporary architectural lines, a Living Culture pergola louvre system has a versatile appearance to suit any style of outdoor space.

All Living Culture pergolas feature integrated gutters and internal drainage and are manufactured in a powder coated aluminium which is durable in all weather conditions whilst extending the aluminium louvre systems lifespan. Securely mount to a porch, patio or pool area and instantly extend your entertaining space. Fixings not included as the type will depend on your mounting surface.

Available in a range of colour options, it's a sleek, striking and functional addition to any backyard. Curate an outdoor space you want to escape to with the Living Culture aluminium louvre system.

*Install must be on a suitable substrate surface. We recommend seeking professional advice before installation. Please ensure professional installation of your louvre system. For your safety, please do not make any alterations to the system - any adjustments will void your warranty.

Wall Mounted Patio Cover

Home is where the heart is, and that includes your patio, deck or garden. Create seamless and stylish indoor-outdoor flow your guests will love.

The wall mounted cover is ideal for extending your living space outdoors, protecting your BBQ area, shelter over the spa, or even as a carport.

Constructed from our zero maintenance powder-coated aluminium, it is designed to be suitable in harsh weather conditions and last for years to come. The elegant hue of the frame suits all homes and outdoor spaces. Simply install against a solid wall structure with the help of a handy professional.

Using impact-resistance German designed Bayer® PC polycarbonate roof shields, the structure helps ward off harsh UV rays, rain or even snowfall. These polycarbonate panels are environmentally friendly and coated with an anti-ultraviolet treatment to help insulate and provide added comfort below. Stronger and safer than acrylic or tempered glass, you can depend on the structure to provide shelter year round adding a perfect spot for socialising with friends and family.

Optimise your outdoor living space with the stylish and functional unit.

Freestanding Carport

Protect your car, boat or caravan from wind, rain or snow with a Living Culture Carport.

Constructed using a combination of solid polycarbonate panels and powder-coated aluminium, it is a sturdy and stable structure. The heat protected panels help to reduce the temperature below, while also being highly resistant to corrosion and fading. While the robust aluminium frame can withstand all weather conditions, ensuring your carport will last you for years to come.

The Living Culture Carport is the ideal solution for protecting your vehicle at home or the office, or even providing much needed shade over the pool or BBQ. Securely mount to a concrete drive or patio – you can even fix multiple carports together to create a larger covered space.

Keep your valuable asset on wheels protected all year round with this stylish and versatile parking solution.

*The unique cantilever design is the perfect balance between style and functionality. With fewer posts you're able to maximise the space below and worry less about hitting a pole while parking. The stylish finish gives it a great modern aesthetic which suits any home.

LIVING
CULTURE

Built for
Timeless Moments
DESIGNED FOR OUTDOOR LIVING

Live outdoors for less.

Using high-quality materials and textiles our collections will help create warm and inviting spaces around your home.

Living culture is continually expanding with new products regularly being added to our exclusive yet affordable selection which include:

Pergolas & Louvre roofs, Outdoor Shade Umbrellas, Saunas, Spa Pools, Patio covers, Carports, Garden Sheds, Cabins, Outdoor Cooking, Outdoor Heating, Outdoor Furniture and more.

Established in 2007 the Living Culture brand did not expand fully until 2020 when the company embarked on a new journey.

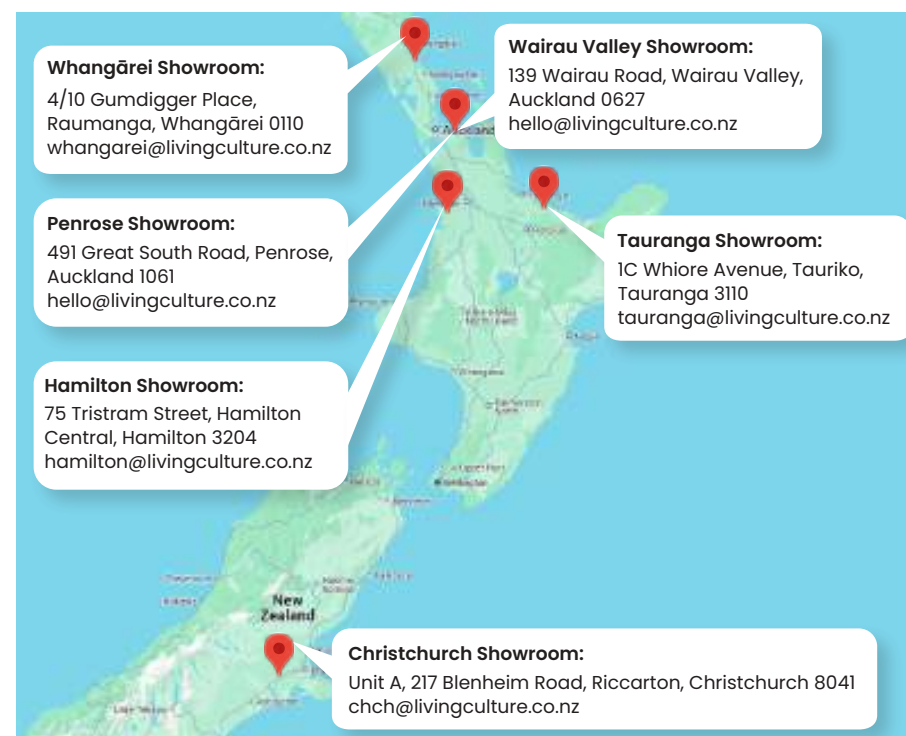

This included launching the new Louvre Pergola range and opening the new 1,858 m² Auckland Showroom. This was followed closely by the establishment of the new Pt England Distribution Centre which consists of over 2,322 m² of quality home and living products for distribution around New Zealand and Internationally.

Since 2007 the company has proudly processed more than 1,000,000 orders and can honestly say we have served more than 300,000 New Zealanders. The team are as excited about assisting you today as we were operating out of the small Dunedin garage all those years back.

We welcome you to visit us online or in store and would love to help you enjoy the laid-back kiwi lifestyle with quality products direct from our internationally acclaimed suppliers for everyday low prices.

Retractable Awnings

Home is where you relax, recharge, and connect — and that includes your outdoor space. Whether it's your patio or garden, our range of retractable awnings helps you create a shaded retreat that blends comfort with style.

Engineered for performance, the powder-coated aluminium frame and UV-blocking acrylic fabric work together to deliver year-round protection, reducing heat and preventing sun damage with up to 99% UV resistance. For those who seek the ultimate in durability and better colourfast performance, full cassette models are made with world-renowned French Dickson® fabric — designed to resist fading, mildew, and harsh sun.

From simple manual designs to sleek motorised awnings with fully enclosed cassettes & LED lighting, our collection offers flexible solutions for every lifestyle. Enjoy the freedom to extend or retract shade as needed — protecting your outdoor dining, lounge, or poolside area in any season.

With wind resistance up to 50km/h and a modern aesthetic that complements any home, our awnings are more than just shelter — they're an effortless way to expand your living space and enjoy the outdoors, your way.

Drop Arm Awnings

Windows are the gateway to your home's comfort and energy efficiency — and our Solaris solar-powered window awnings elevate both. Designed for windows, balconies, and facades, these awnings bring modern convenience and sustainable comfort to every façade.

Powered entirely by solar energy, the motorised system operates smoothly via remote control — no external power required. The sleek, fully enclosed cassette design protects fabric and hardware while enhancing your home's appearance.

Crafted with a durable powder-coated frame and premium solution-dyed acrylic fabric, our window awnings offer reliable sun shading and UV protection, reducing glare and helping keep interiors cool. Adjustable pivot arms let you control light and shade throughout the day with ease.

Elegant, efficient, and built to withstand daily use, our window awnings are a smart way to improve comfort, reduce interior heat gain, and enhance your home's exterior — all powered by clean, renewable energy.

Gas Fire Pits

Don't let cooler evenings stop you from entertaining outdoors. Light up our gas fire pit and gather the crew for a cozy night around an incredible centrepiece for outdoor gatherings. When it's not in use, you can protect your gas fire pit from the elements with a convenient and simple canvas cover.

Fountains

Transform your home into a serene spa-like retreat with our outdoor fountain. Crafted from premium glass-fiber reinforced concrete, it embodies modern design elements that will impress all your guests. With simple assembly and a contemporary look, it's the perfect choice to elevate your outdoor landscape.

Coffee & Side Tables

Handcrafted by skilled artisans and made from fiberglass-reinforced concrete, it features a strong yet refined surface with ample space for your daily essentials or decorative items. It complements any modern or minimalist living space, making it a versatile and stylish addition to your home.
