Do Not Disturb: Steaming in Progress

- PROPRESS -

Does your hotel have Propress on its radar?

If not, it's time to check Propress MINI, our handheld steamer, into your hotel. The Iron Age is over; there's no need to clutter your guests' storage space with a cumbersome iron and board.

Established in 1980, Propress is the original steaming brand supplying shops, soft furnishers, hotels, and resorts — removing creases in fabric wherever they appear. Our steamers are the highest-quality, longest-lasting, and most reliable on the market.

In hotels, professional steamers have traditionally been used for housekeeping, banqueting and events, to provide a five-star freshening and anti-creasing touch to staff uniforms, curtains, tablecloths, and chair covers. (Steaming even kills bed bugs and their eggs almost immediately.)

Propress MINI can be used on a variety of clothing, from suits to dresses, and even delicate fabrics. It's so versatile, it can be used vertically, for hanging fabric, or horizontally on bed linen and upholstery.

Guests often look to remove creases from clothes when unpacking or after a few days' stay, especially those travelling for business or individuals attending events where wrinkle-free clothing is important.

Coupled with its ability to treat delicate materials, the Propress MINI is ready to go in just 45 seconds, making it a match made in heaven for wedding attendees. As the old saying goes: "Steam if you want to go faster!"

The Iron Age Is Over

- More wardrobe space without an ironing board
- Easier to use and more guest friendly
- Projects a contemporary image for your hotel
- Less damaging to clothes.
