The Round Plunge

3.5 m diameter | 2.18 m high
\$29,000 + GST

The original expression of our work - a generously deep, circular plunge pool that ignited our vision and laid the foundation for everything that followed. This pool can have either a flat or sloping floor.

The Square Plunge

3 m x 3 m | 1.82 m high
\$27,000 + GST

Make it your own

Its signature curved edge breaks away from traditional pool design, creating a softer, more sculptural form. This will transform your space into a private oasis.

The elongated proportions create a greater sense of space. For those who are looking for something bigger, these pools are the perfect solution.

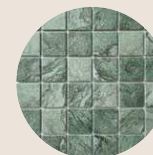

Our Mosaic Range

Inspired by Aotearoa's iconic swimming destinations, our exclusive mosaic collection is available only through Rockpool. Every pool is meticulously tiled throughout, with steps and edges carefully finished in curved mosaic tiles to create a smooth, refined profile without harsh or exposed corners. Premium epoxy grout completes the finish, selected for its non-porous surface, exceptional resistance to stains and chemicals, lasting colour stability and low-maintenance performance.

Prefer to finish it yourself?

A shell-only option is also available, giving you the flexibility to select and arrange your own interior finish. Enquire for shell-only pricing and inclusions.
