

FAQ'S

What temperature can a Tiny Pool get up to with a heat pump?

Our heat pumps, when used with our Tiny Pools, can heat the water to 40°C.

Do I need a consent?

Our pools only require a fencing consent

Why should I choose Tiny Pools?

Tiny Pools can be installed above ground, half in-ground, or fully in-ground. They're low maintenance, fit into most backyards, and best of all, they're made right here in New Zealand.

What are our lead times for delivery?

Delivery typically takes 4-8 weeks from when your order is confirmed.

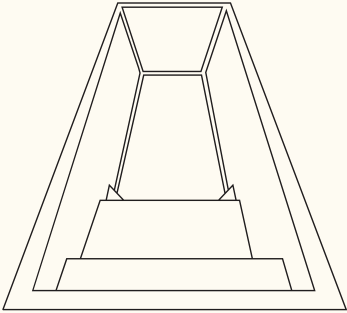

TINY POOLS

Tiny Pools, New Zealand's concrete plunge pool specialists, began in Mount Maunganui with one clear goal: to bring great design to everyday outdoor living. We combine innovation, craftsmanship, and creativity to deliver small space solutions that make a big impression.
